Summary

"I am an industrial engineer with a master's degree in industrial engineering, enthusiastic about technology, film, and video games. Throughout my career, I have gained experience in image design and video editing for social media platforms. Currently, I am focusing my energy on learning programming with the goal of transitioning into a career as a programmer. I am excited to explore new opportunities in the field of programming and to apply my analytical and problem-solving skills to develop innovative solutions.

I am committed to my professional growth and am constantly seeking new learning and development opportunities. I am always open to connecting with industry professionals and exploring collaborations on exciting projects."
